

What we do

We attend regular meetings with education, health and social care providers, informing them if services for children and young people with SEND are working well and where improvements are needed.

We run regular meet-ups for parent carers and some events that are SEND friendly for the whole family.

We work collaboratively with service providers to ensure your views are heard and reflected in those services.

Who we are

We are a group of parent carers, each of us with one or more child with special educational needs and/or disability.

We volunteer our time to run the forum, where we aim to represent your views to education, health and social care providers.
